Quicktalker Freestyle Summary

The Ablenet Quicktalker Freestyle is a dedicated communication device based on an iOS platform (iPad) available in an 8 inch, 10 inch, and 12 inch size. The communication device has a durable case with handle and available gorilla glass screen cover. The device has a separate portable speaker available for amplification of sound in loud environments. The Ablenet Quicktalker Freestyle has available mounting solutions and switches for additional purchase. The Ablenet Quicktalker Freestyle is a “locked” iPad that can be purchased with any one AAC app available on the app store. This includes (but not limited to) TouchChat, TD Snap, LAMP Words for Life, and Proloquo2Go.

Forbes AAC ProSlate Summary

The Forbes AAC ProSlate is an iOS based dedicated communication device available in four sizes (13, 10, 8 and 4). Users have the ability to select their preferred AAC app from the iOS app store upon purchase. The ProSlate has a button cover, removable speaker (SoundPod) that can connect via magnet to the back of the device or be worn by a user, and the FlexABLE Handle/Stand. It is available in various case colors that include black, white, pink, blue and rose. The ProSlates also has keyguards available, in clear matte or black, for almost any AAC application.

Forbes AAC WinSlate Summary

The Forbes AAC WinSlate is a Windows based dedicated communication device available in a 12 inch display. Users have the ability to select their preferred AAC software and accessible apps from the Spark software. The WinSlate has a removable speaker (SoundPod) that can connect via magnet to the back of the device or be worn by a user, and the FlexABLE Handle/Stand and the Adapta multifunction hub with infrared integration. The WinSlates also has keyguards available, in clear matte or black, for almost any AAC application.

Spark, powered by MindExpress, is Forbes AAC's proprietary package of communication systems, assessment supports, educational resources and access tools. It also has the grid sets for the Language Development Kit interactive toys, designed to empower every WinSlate user to connect, communicate and grow.
