CHAIRMAN'S MESSAGE

Dear Shareholders

It has been an exciting year for your company. **15th May, 2018**, became a red letter day in the history of M/s **E2E Networks Limited**, the Company got listed on National Stock Exchange Emerge, SME platform.

The IPO of ₹ 21.99 Crores received an overwhelming response.

It is a pleasure and privilege to share with you the highlights of the year's performance and outlook for the next year.

- Our Total revenue for the year is ₹ 3629.67 lacs as compared to ₹ 2952.89 lacs in the previous year.
- Our Profit before tax was ₹ 807.23 lacs as compared to ₹ 643.31 lacs in the previous year.
- Our Profit after tax was ₹ 575.95 lacs as compared to ₹ 446.98 lacs in the previous year.

Your company has built its own Cloud Computing Infrastructure from the scratch using Open Source Software and custom designed physical servers to optimize cost, performance and speed of delivery targeting the Indian Cloud Computing market.

Recently we have seen a broad trend towards data localization in the emerging economies like India. This trend is due to demand for better performance of compute infrastructure at a lower latency and better compliance with emerging regulatory environment. This opens up new opportunities in the Cloud Computing Space for players with physical infrastructure in India.

There has been massively increased availability of broadband Internet infrastructure especially for the SME segment which has resulted in increased adoption of Cloud Computing for deployment of hitherto on premise Information Technology applications. The fear of being disconnected from critical applications if they are deployment on the Cloud as compared to on-premise has rapidly decreased.

Digital Transformation initiatives in the various industry segments is also leading to increased adoption of Public Cloud Computing as the preferred Compute infrastructure platform as opposed to on-premise setups.

While we began in 2009 as a contractless computing player targeting the value segment, we have been gradually building up our self-service public cloud platform that can enable rapid deployment for businesses looking to roll out their online server side web or mobile applications. We provide building blocks that can be used to rapidly architect computing infrastructure with pre-configured open source based micro-services such as webservers/loadbalancers/firewalls/databases etc on our Public Cloud Platform for our customers. This results in lower project delivery costs by cutting down the delivery timelines. We see a huge opportunity in the self-service cloud computing market in India by investing in improvements and feature additions to our Public Cloud Platform. We are also working on delivering GPU based compute infrastructure used by the Open Source Deep Learning/Machine Learning Artificial Intelligence platforms via our Public Cloud Platform.

Our Multi-Cloud CloudOps platform can be used to provide devops and managed services on any of the 2000 plus public clouds across the world. Our CloudOps platform uses a blend of automation delivered via technology combined with human intelligence to reduce the workload of the in-house DevOps team. We intend to capitalize on the devops services opportunity for both E2E's own public cloud as well as any other Public Cloud preferred by our Multi-Cloud CloudOps platform's customers.

I, on behalf of our team assure you of our singular commitment to the growth of Company with ethics and integrity. I would express my gratitude to our diverse stakeholders, our customers, vendors, bankers, all the team members and the board of Directors for their continued support in the growth journey of E2E.

Warm Regards

A. INDUSTRY STRUCTURE AND DEVELOPMENTS

The public cloud services market in India is projected to grow 38 percent in 2017 to total \$1.81 billion, according to Gartner, Inc. The highest growth will continue to be driven by infrastructure as a service (IaaS) which is projected to grow at 49.2 percent in 2017, followed by 33 percent in software as a service (SaaS) and 32.1 percent in platform as a service (PaaS). The increase of SaaS and PaaS are indicators that the migration of application and workloads from on premises data centres to the cloud, as well as the development of cloud ready and cloud native applications, are fuelling the growth in the cloud space.

The Company is engaged in business of providing cloud computing services. The key services provided by our company is Cloud Infrastructure and Devops services (CloudOps).

In our Cloud Infrastructure business, we provide Infrastructure to handle workloads related to compute needs of our clients. This infrastructure includes hardware and software components such as servers, storage, networking, virtualization and pre-configured open source software or Server & Hypervisor Operating Systems, Database Systems from Independent Software Vendors like Microsoft.

Our company offers both Private and Public Cloud compute services as per the needs of the customers. In case of Private Cloud, the servers are identified and deployed in a dedicated fashion for usage specifically by a particular customer. Our Company can also deploy a Hybrid Cloud Infrastructure where the client can use Private Cloud and/

or Public Cloud provided by our company and other Public Clouds such as AWS, Google Cloud Platform, Microsoft Azure and others.

Our Cloud Ops Platform has a unique approach of combining Open Source Software with highly trained people along with processes to deliver fully managed Multi-Cloud Operations. Our Cloud Operations Platform frees clients to focus on the applications and services that drive their business, by assuming major responsibility for infrastructure operations and maintenance.

B. OPPORTUNITIES AND THREATS

OPPORTUNITIES

The current revolution in 4G and massive improvement in quality of wired connectivity coupled with falling costs of connectivity in India is resulting in better connected SMEs. This presents a unique opportunity in IAAS (Infrastructure As A Service) Cloud Computing space. One of the most often heard objection to moving from on-premise solutions to Public Cloud was expensive connectivity costs in India. This is resulting in exploration by SME sector to migrate their on-premise IT applications to the Public Cloud. E2E Networks will get a pie of this business.

The gaps in availability of experienced devops professionals capable of handling business critical applications on the Public Cloud remains a challenge. This presents an opportunity for our Cloud Ops platform to help customers optimize their Cloud Deployments by implementing better security practices, achieving High Availability, Scalability and improving performance of applications.

THREATS

- i) Competition from multinational Public Cloud Computing players: India is a very attractive large market for both US headquartered Cloud Players who have setup local availability zones as well as China headquartered Cloud Players. E2E Networks faces tough competition in its home market from these players.
- ii) Adverse Regulatory Changes: India is well known for making ambiguous laws open to varied interpretation by its bureaucracy. This presents an uncertain environment for technology businesses like Cloud Computing in India.
- iii) Access to talent and retention of development teams.
- iv) Execution Risk.

C. SEGMENT WISE OR PRODUCT WISE PERFORMANCE

The operations of the company are considered as single segment, hence segment wise performance has not been shown.

Independent Auditor's Report

**To the Members of
E2E NETWORKS LIMITED**

Report on the Financial Statements

We have audited the accompanying financial statements of **E2E NETWORKS LIMITED ("the Company")** which comprises the Balance Sheet as at March 31, 2018, the Statement of Profit and Loss and Cash Flow Statement, for the year the ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performances of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial controls system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2018, and its Profit and its cash flows for the year ended on that date.

Annexure - B to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of the Company as of 31 March 2018 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

(1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

**NOTES ON FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2018****NOTE - 1****Significant Accounting Policies****COMPANY OVERVIEW**

E2E Networks Limited (Erstwhile E2E Networks Private Limited) ("the Company") was incorporated on 20th August, 2009 with an objective of providing services of cloud computing services. The company had filed application for conversion to Public Limited Company and converted to Public Limited company on 14.03.2018.

A. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

These financial statements are prepared in accordance with Indian Generally Accepted Accounting Principles (GAAP) under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values. GAAP comprises mandatory accounting standards as prescribed under Section 133 of the Companies Act, 2013 ('the Act') read with Rule 7 of the Companies (Accounts) Rules, 2014, the provisions of the Act (to the extent notified) and guidelines issued by the Securities and Exchange Board of India (SEBI). Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

B. USE OF ESTIMATES

The preparation of the financial statements in conformity with Indian GAAP requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known or materialise.

C. Current / Non-Current Classification

All assets and liabilities are classified into current and non-current.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- a. it is expected to be realised in, or is intended for sale or consumption in, the company's normal operating cycle;
- b. it is held primarily for the purpose of being traded;
- c. it is expected to be realised within 12 months after the reporting date; or
- d. it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

Current assets include the current portion of non-current financial assets. All other assets are classified as non-current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- a. it is expected to be settled in the company's normal operating cycle;
- b. it is held primarily for the purpose of being traded;
- c. it is expected to be realised within 12 months after the reporting date; or
- d. the company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

Current liabilities include current portion of non-current financial liabilities. All other liabilities are classified as non-current.

Operating cycle

Operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. Based on the above definition and the nature of services provided, the Company has ascertained its operating cycle as 12 months for the purpose of current – non-current classification of assets and liabilities.

**NOTES ON FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2018****D. FIXED ASSETS****Tangible Assets**

Fixed Assets have been stated at actual cost inclusive of installation cost, taxes and other incidental expenses. The life of the certain assets has been taken less than as per life prescribed in schedule II of companies act 2013. Eg. The life of Servers in schedule II of companies act is prescribed to be 6 years whereas the life of the same has been taken 3 years and life of Temporary Structure as per companies act is 3 years whereas the life of the same has been taken 5 years. This decision is supported by the advice of technical expert.

E. Other Intangible Assets

Other Intangible Assets are stated at cost of acquisition net of recoverable taxes, trade discount and rebates less accumulated amortisation/depletion and impairment loss, if any. Such cost includes purchase price, borrowing costs, and any cost directly attributable to bringing the asset to its working condition for the intended use, net charges on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the Other Intangible Assets.

F. Leases

Leases are classified as operating lease when lessor allows for the use of an asset but does not convey rights of ownership of the asset. An operating lease represents an off-balance sheet financing of assets, where a leased asset and associated liabilities of future rent payments are not included on the balance sheet of a company.

Company has an operating lease with an IBM India Private Limited For 3 Years, but the lessor may at its option transfer the assets at a nominal cost to E2E Networks Limited. Since the cost of the asset after the expiry of the lease term will almost be nil, so management of the company have treated that lease as an operating lease.

G. DEPRECIATION, AMORTISATION AND DEPLETION

Depreciation on tangible assets is provided on the WDV method over the useful lives of assets as prescribed in Schedule II to the Companies Act, 2013. Depreciation for assets purchased / sold during a period is proportionately charged.

H. IMPAIRMENT OF ASSETS

At each Balance Sheet date, an assessment is done to determine whether there is any indication of impairment to the assets. If any such indication exists, the management estimates the recoverable amount of the asset. If such recoverable amount of the Asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the Profit & Loss account. If at the Balance Sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is re-assessed and the asset is reflected at the recoverable amount subject to a maximum of depreciated historical cost. In the current reporting period, the company didn't find any such indication requiring impairment or its reassessment.

I. REVENUE RECOGNITION

The Company's revenue from cloud computing services and managed hosting services are recognised when the said services are rendered to the customers over the period of the contracts or based on actual utilization of such services and when no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale / rendering of services and regarding its collection.

Revenue from sale of traded goods is recognised when property in those goods or all significant risks and rewards of their ownership are transferred to the customer and no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of the traded goods and regarding its collection.

J. INVESTMENTS

Trade Investments are the investments made to enhance the company's business interests. Investments are classified into current and long term investments. Investments that are readily realizable and intended to be held for not more than an year from the date of acquisition are classified as current investments. All other investments are classified as long term investments.

Current investments are stated at lower of cost or fair value. The comparison of cost and fair value is done separately in respect of each category of investments.

Long term investments are stated at cost. A provision for diminution in the value of long term investments is made only if such a decline is other than temporary in the opinion of management. Investments other than in subsidiary and associates have been accounted as per Accounting Standard (AS) 13 on "Accounting for Investments".

**NOTES ON FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2018****K. INVENTORIES**

Raw materials, components, stores and spares are valued at lower of cost and net realizable value. The company being a service company, doesn't have any stock in trade as on 31st March 2018.

L. TRADE RECEIVABLES

Trade receivables are stated after writing off debts considered as bad, if any. Adequate provision shall be made for debts if considered doubtful.

M. EMPLOYEE BENEFITS

Employee benefit expenses include salary, wages, performance incentives, compensated absences, medical benefits and other perquisites. It also includes post-employment benefits such as provident fund.

Short term employee benefit obligations are estimated and provided for.

The company is registered with The Employees Provident Funds and Miscellaneous Provisions Act 1952 and with Employee State Insurance Act 1948, and both the Employee and the Company make monthly contributions to the provident fund plan and ESIC plan equal to a specified percentage of the covered employee's salary.

Retirement benefit cost and termination benefit categorised as gratuity has been determined and recognised as expense during the year based on Actuarial Valuation Report of Gratuity liability as on 31st March 2018. The Detailed note of such calculation and provision has been set out in Note No 30.

Equity-settled share-based payments to employees of the Company are measured at the fair value of the equity instruments in March 2018. Details regarding the determination of the fair value of equity-settled share-based transactions are set out in Note No 28. The fair value determined in March 2018 of the equity-settled sharebased payments to employees of the Company is expensed on a straight-line basis over the vesting period, based on the Company's estimate of equity instruments that will eventually vest.

N. TAXES ON INCOME

Tax expense comprises of current tax and deferred tax. Current tax is measured at the amount expected to be paid to the tax authorities, using the applicable tax rates. Deferred income tax reflect the current period timing differences between taxable income and accounting income for the period and reversal of timing differences of earlier years/period. Deferred tax assets are recognised only to the extent that there is a reasonable certainty that sufficient future income will be available except that deferred tax assets, in case there are unabsorbed depreciation or losses, are recognised if there is virtual certainty that sufficient future taxable income will be available to realise the same. Deferred tax assets/liabilities during the year has been calculated considering the WDV of assets instead of depreciation considered in previous reporting period. With the change of method of calculations of deferred tax, the difference of deferred tax which pertains to previous periods has been adjusted with balances of reserve and surplus in the balance sheet. Deferred tax assets and liabilities are measured using the tax rates and tax law that have been enacted or substantively enacted by the Balance Sheet date.

O. OTHER INCOME

Interest income is recognised on an accrual basis.

P. PRIOR PERIOD ITEMS

Prior period items arisen in the current year as a result of errors or omission in the preparation of the financial statements of prior period(s) are separately disclosed in the Statement of Profit and Loss.

Q. BORROWING COST

All borrowing costs are charged to revenue except to the extent they are attributable to qualifying assets which are capitalized. A Qualifying Asset is one that necessarily takes substantial period of time to get ready for its intended use. During the year under review there was no borrowing attributable to qualifying assets and hence no borrowing cost was capitalized.

NOTES ON FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2018

R. CASH AND CASH EQUIVALENTS

Cash and Cash Equivalents for the purpose of cash flow statement comprise cash in hand, bank balances and deposits.

S. FOREIGN CURRENCY TRANSACTIONS

(a) Initial Recognition

Transactions in foreign currencies entered into by the Company are accounted at the exchange rates prevailing on the date of the transaction. Exchange differences arising on foreign exchange transactions settled during the year are recognized in the Statement of Profit and Loss.

(b) Measurement of foreign currency items at the Balance Sheet date

Foreign currency monetary items of the Company are restated at the closing exchange rates. Non-monetary items are recorded at the exchange rate prevailing on the date of the transaction. Exchange differences arising out of these translations are recognized in the Statement of Profit and Loss.

T. CASH FLOW STATEMENT

The Cash Flow Statement are reported using the indirect method, whereby net profit after tax is adjusted for the effects of transactions of non cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the company are segregated, if necessary.

U. PROVISIONS AND CONTINGENT LIABILITIES AND CONTINGENT ASSETS

A provision is recognised if, as a result of a past event, the Company has a present obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are recognised at the best estimate of the expenditure required to settle the present obligation at the balance sheet date. The provisions are measured on an undiscounted basis.

Provision in respect of loss contingencies relating to claims, litigation, assessment, fines, penalties, etc. are recognised when it is probable that a liability has been incurred and the amount can be estimated reliably.

A contingent liability exists when there is a possible but not probable obligation, or a present obligation that may, but probably will not, require an outflow of resources, or a present obligation whose amount cannot be estimated reliably. Contingent liabilities do not warrant provisions, but are disclosed, unless the possibility of outflow of resources is remote.

Contingent assets are neither recognised nor disclosed in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognised in the period in which the change occurs.

V. DISCLOSURE OF EVENTS OCCURRING AFTER BALANCE SHEET DATE EXPLANATORY

NOTE - 27

EARNING PER SHARE

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

(Amount in ₹)

PARTICULARS	2017-2018	2016-2017
Net Profit/(Loss) for the year	5,75,94,883	4,46,98,068

Diluted EPS	4.97	3.92
Weighted Number of Equity Shares for basic EPS	1,14,10,567	2,70,295
Effect of Dilution:		
Esops (Numbers)	1,86,091	*
Weighted Number of Equity Shares after dilution effect	1,15,96,659	2,70,295

*Anti Dilutive

Diluted earnings per share is calculated by dividing income by the weighted-average number of shares outstanding during the year, assuming that all potentially dilutive securities were exercised, if dilutive. While Calculating the dilutive EPS for 30.09.2017, our management has considered the grant of options in entire year of 2017-2018.

**NOTE- 28****EMPLOYEE STOCK OPTION PLAN**

As At 31st March,2018 , the company has the following Share Based Payments for Employees.

“Employee Stock Option Scheme 2018 (ESOS 2018)”

The terms and conditions are us under:-

-Options shall vest equally over a period of 5 (five) years of continuous completed service or such other period as may be determined by the Compensation Committee on case to case basis from the date of Grant of Options subject to continuous and uninterrupted employment of the option holder.

-Total number of options granted shall not exceed 4,00,000.

-The options carry neither rights to dividend nor voting rights till shares are issued upon exercise of options.

-There is minimum period of one year between the grant date and vesting of options (Cliff Period).

The fair value of the share options were estimated in March 2018 using a black scholes option pricing model, taking into account the terms and conditions upon which the share options are granted.
